

WANTED DEAD

Medusahead Rye

- Non-native, annual grass.
- Cool season, extremely competitive.
- Grows 6 to 25 inches high.
- Produces tillers, but few leaves.
- Flowers and produces seed in late spring to early summer.
- Flowering and seed production is later than most grasses.
- Awns are 1 to 3 inches long, stiff, barbed and twisted as the seeds mature.
- Seed heads do not break apart completely.
