10 pts.	Proper cold holding temperatures Comment: (Corrected) Found TCS foods (time/temperature control for safety foods) such as meat sandwiches, yogurt, melons etc. measuring 44F on the west side of the round display cooler. The ambient temperature was 44F. The east side of cooler was measuring 41F or below. Foods requiring temperature control shall be kept cold at 41 F or below. Time that the food was off temperature was within acceptable limits. Corrected by decreasing the temperature in the cooler and observing the temperatures decrease.	22
